

“Every time I prepare lessons for the Deditos series, I appreciate so much the quality of the videos. I find such wonderful and incredible theological content. This production is excellent!” (Claudia, USA)

Deditos Curriculum

Viña has developed lessons to accompany each video so that children will be challenged to think and behave differently—developing a strong worldview, based on core spiritual perspectives.

Five lessons, designed to accompany each video Bible story, include a teacher’s manual, activity sheets for children of different ages, questions, activities and games to drive home the application of the Bible story.

Another series of lessons have been developed for use by parents in the home.

The lessons provide practical ways for kids to grow in trusting God, showing love to their neighbors, and learning how the whole story of the Bible fits together...connecting the dots between the Bible and kids’ lives.

Deditos is produced by Viña,
a media production ministry in Guatemala.

What others are saying...

“In my opinion...Deditos is the best and most attainable choice [of Christian media projects] for local churches as they seek to reach out to minority language people groups. Remember the typical local church in the world today is both non-western, and low-income. When I compare Deditos to other projects...it is easy to see that Deditos is the one project that is reasonably close to the capacity of non-western national churches.” (Jim, Pioneers)

Children fascinated and filled with hope as they come into contact with God’s Word.

“What you believe at age 13 is what you will believe until you die.”

In the overwhelming majority of children, most of the moral and spiritual foundations are in place by age nine. By the age of 13, one’s spiritual identity is largely set in place. (George Barna)

Start children off on the way they should go, and even when they are old they will not turn from it. Proverbs 22:6 (NIV)

One of the biggest needs in the world are non-Western discipleship materials for children

- Much of the material available around the world comes from the West, and is not relevant.
- Many ethnic groups have no materials for children in their language.

The Power of a well-told story

Each culture houses its central convictions in its fundamental narrative—it’s creation story.

The Deditos video series uses fifteen chronological Old Testament stories, beginning with God’s creation, to offer biblical answers to those fundamental worldview questions by presenting God’s dealings with humanity to illuminate the human condition and the hope that is found only in Christ.

The superhero in the Deditos Bible stories is God

Children need to know that God is not just any god, but the God of the Bible; the God of Abraham, Isaac, and Jacob. He loves them so much that he gave his Son Jesus to save them from their sins. And he desires to see them flourish and grow.

The Deditos series gives children a foundational understanding that God is the God of all cultures, gives them a solid connection with the themes and stories of the Old Testament, which in turn gives context and meaning to the New Testament.

Deditos (little fingers) Videos

Children need to know God from the time they are small, but it can be hard to share Bible stories with them in a way that is captivating AND true to Scripture.

The Deditos series gives children a foundational understanding that God is the God of all cultures, gives them a solid connection with the themes and stories of the Old Testament, which in turn gives context and meaning to the New Testament.
